Product Declaration (continued)

The material to be reclaimed contains heavy metals?

Mark only one oval.

- Does not contain heavy metals
 Does contain heavy metals

The material to be reclaimed is corrosive?

Mark only one oval.

- Is not corrosive
 Is corrosive

The answers above are based on our analysis and/or knowledge as defined in our waste-analysis plan. Therefore, it can be shipped according to applicable DOT regulations for this material.

Customer Declaration

Customer warrants that the containers to be shipped to TMC Industries Inc. will be properly labeled, with the name of the material, the words "Used Oil", our company name and address, as well as all other labels required the DOT.

Customer will assume all responsibility and liability as a result of any errors in labeling or shipping of the material.

Customer confirms the reclaimed material will not be used as a fuel.

As a representative of the generator of this material, I certify that the information above is true to the best of my knowledge and is an accurate description of the material that will be sent to TMC for reclamation. Furthermore, I certify that I have submitted all relevant information in our possession regarding known or suspected hazards in this spent material which would affect the ability of TMC to safely transport, store, recover, process and/or dispose of the process residuals.
